

LETTER
TO THE EDITOREditor
The Elba Clipper

Dear Sir:

I am trying to write a history of the old Helms family. I know that they came from North Carolina and settled in Barbour County, Alabama, about 1853, but some members of the family moved on to Helms, born 1833; Milbra Coffey County. My g.g.g. grandfather was Joel Helms (born 1793, died

1840). He and his wife, Lacy Thomas Helms (born 1794, died 1869) finally settled in Coffee County, in the vicinity of New Brockton or Elba.

This couple had twelve children: Lacy Helms, born 1812; Moses W. Helms, born 1814; Aaron Helms, born 1816; Nancy Helms, born 1818; John W. Helms, born 1820; Charles J. Helms, born 1823; Lacy Helms, born 1825; Edy Helms, born 1829; Joel Helms, born 1829; Joel Helms, born 1831; Milbra Coffey County. My g.g.g. grandfather was Joel Helms (born 1793, died

children lived in Coffee County, Alabama. It seems that the Helms were primarily of the Primitive Baptist ministers. My g.g. grandpa, Aaron Helms (1816-1883) was a PB minister, but he lived his entire life in Barbour County and is buried there in the old Helms cemetery, near Blue Springs, Alabama. I have been told that one of the Helms girls married a John Prescott and another girl married a Mr. Richburg. I assume that they all lived in Coffee County. Will you please print my letter in your paper? I just feel that someone will see it, and he might be able to

Respectfully,
John P. Johnston

KIDS NEED LSD

Most any magazine you pick up these days will feature articles on these three subjects if nothing else—sex, how to lose weight and drug abuse. Of the three,

the latter is the "Johnny-come-lately." No one is foolish enough to say drug abuse does not exist. In fact, one of the problems has been the hesitancy of people to admit that it is happening close-at-hand among people they know. What is the answer? I believe the answer to the drug problem (and to many other problems) is more LSD. In fact, more LSD in EVERY home, I am in whole-hearted agreement with the prize-winning statement of a seventh grade student from Ohio: "What the kids of today need is lots of LSD—love, security and discipline." The best way to keep your kids from going to pot is to give them this LSD. We do not need a Margaret Mead or Timothy Leary to clamor for legalization. This LSD is already legal! What we do need is widespread distribution. Join in the fight against drug abuse. Give your kids LSD—Love, Security and Discipline.

NOTICE RABIES NOTICE

Rabies - one of the oldest diseases of man and other warm blooded animals affects all warm blooded animals regardless of size or type and is ALWAYS fatal (deadly) once symptoms have developed.

The only protection against rabies for pets and livestock is vaccination or complete isolation from all other animals. Treatment for exposure to rabies in people is a series of 14 or more shots daily that are painful and potentially dangerous.

Rabies has been diagnosed in animals - dogs, fox, cattle, and cats - in Coffee County several times this year. Several people have been exposed to these animals and had to go through the series of treatments.

State and County regulations require that all dogs over three months of age be vaccinated yearly and wear a tag. Please protect your dog, family, children, neighbors, livestock and community by complying with these regulations.

WORSHIP

IN THE CHURCH
OF YOUR CHOICE

Can't tell yet whether my son will follow in his
Dad's footsteps. Blocks don't make an engineer.

But he's learning some of the basic principles of
physics with which many professions deal.

On the way home from Church, when he talks about
his lesson, I recognize familiar signs . . . character
is still in the mold. Deep conviction, bold dedication
come later. But he's grasping those basic truths on
which great living rises.

For a busy engineer who used to be hit-or-miss in
his church attendance, fostering the growth of a soul
is a fascinating experience . . . especially as I find my
own faith deepening with every reverent day!

THE CHURCH FOR ALL
ALL FOR THE CHURCH

The Church is the greatest factor
in the building of character and good citizenship. It is a
storehouse of spiritual values. With-
out a strong Church, modern de-
mocracy and civilization can not
survive. There are four sound reasons
why every person should attend
church regularly and support the
Church. They are: (1) For his own
sake. (2) For his children's sake.
(3) For the sake of his com-
munity and nation. (4) For the
sake of the Church itself, which
needs his moral and material sup-
port. Please go to church regu-
larly and send your Bible daily.

LEGAL NOTICES

SUBDIVISION REGULATIONS
CITY OF ELBA, ALABAMA
ARTICLE I - AUTHORITY AND JURISDICTION

Section 1 - Under the authority of Title 37, Article 3, Sections 797 to 803 inclusive of the 1940 Code of Alabama, (recompiled 1958) which sections are hereby made a part of these regulations, the Elba City Planning Commission at its regular meeting on July 6, 1971 adopted by resolution the following regulations, a copy of which has been certified to the Probate Judge of Coffee County.

Section 2 - From and after the date of adoption these regulations shall govern all subdivision of land within the corporate limits and police jurisdiction of the City of Elba. Any owner of land within the limits of said subdivision jurisdiction wishing to subdivide land shall submit to the Planning Commission a plat of a subdivision which shall conform to the minimum requirements set forth in Article V of these regulations. No plat of a subdivision lying within such territory or part thereof shall be filed or recorded in the office of the Probate Judge, and no subdivision may proceed with improvements or sale of lots in said subdivision until such subdivision plat shall have been approved by the Planning Commission and such approval entered in writing on the plat by the secretary of the Planning Commission (see Article III, Procedure for Plat Approval).

Section 3 - The term "subdivision" means the division of a lot, tract, or parcel of land into two or more lots, plots, sites, or other divisions of land for the purpose, whether immediate or future, of sale or of building development. It includes, redesign, and, when appropriate to the context, relates to the process of subdividing or to the land or territory subdivided.

ARTICLE II - DEFINITIONS

Section 1 - General Definitions
Except as otherwise provided herein, all words shall have the customary dictionary meaning. The present tense includes the future tense. The singular number includes the plural and the plural includes the singular. The word "person" includes a firm, corporation, association, organization, trust or partnership. The word "lot" includes "plot" or "parcel". The word "building" includes "structure". The word "shall" is mandatory. The word "may" is permissive.

Section 2 - Specific Definitions
When used in these regulations, the following words and phrases shall have the meaning given in this section:

1. ALLEY shall mean a minor public way having a narrow right-of-way and affording a secondary means of access to abutting business properties.
2. BLOCK shall be a tract or parcel of land entirely surrounded by public highways or streets, other than alleys.
3. BUILDING SETBACK LINE shall mean a line parallel to the property line in front of which no structure may be erected.
4. CITY CLERK shall mean the duly designated clerk of the City of Elba, Alabama.
5. CITY COUNCIL shall mean the City Council of the City of Elba, Alabama.
6. COLLECTOR STREET shall mean a street which carries traffic from minor streets to the system of major streets.
7. COMPREHENSIVE PLAN shall mean any legally adopted plan or element of the Comprehensive Plan of the City of Elba or its environs. This may include, but not be limited to, Land Use & Analysis, Future Land Use & Sketch Thoroughfare Plan, Community Facilities Plan, Initial Minimum Housing Element, Public Improvements Program & Capital Improvements Budget, Zoning Ordinance, and Subdivision Regulations.
8. CORNER LOT shall be a lot abutting upon two (2) or more streets at their intersection.
9. CUL-DE-SAC shall mean a short street designed to have one end permanently closed; the closed end terminated by a vehicular turn-around and not more than 600 feet in length.
10. EASEMENT shall mean a grant of rights by the property owner for use by the City or its licensee of a strip of land for specified purposes.
11. MINOR STREETS shall be all streets, both existing and proposed which are used primarily for access to the abutting properties.
12. PLANNING COMMISSION shall mean the Planning Commission for the City of Elba, Alabama.
13. ZONING ORDINANCE shall mean the Zoning Ordinance for the City Elba, Alabama.
14. MAJOR STREET shall be those used primarily for moving fast or heavy traffic. Such streets are shown on the Sketch Thoroughfare Plan.

ARTICLE III - PROCEDURE FOR PLAT APPROVAL

Section 1 - Preliminary Plat Approval

1. To prevent undue hardship on the subdivider through possible required plat revisions, a preliminary plat of the proposed subdivision at a scale not smaller than one hundred (100) feet to the inch shall first be submitted to the Planning Commission in duplicate and shall give the following information:

- (a) The subdivision name, the names and addresses of the owners, and of the designer of the plat who shall be a competent engineer, architect, landscape architect, or land surveyor.
- (b) Date, approximate north point, and a graphic scale.
- (c) The location of existing and platted property lines, streets, buildings, water courses, railroads, sewers, bridges, culverts, drainpipes, water mains, and any public utility easements, both on the land subdivided and on the adjoining land; the names of adjacent subdivisions and the names and addresses of record owners of adjoining parcels of land as they appear on the current tax records.
- (d) The names, locations, widths, and other dimensions of proposed streets, alleys, easements, parks and other open spaces, reservations, lot lines, and building lines.
- (e) Topography of the entire plat showing contour lines at appropriate intervals as to show the relief of the land to be subdivided.
- (f) Profiles of all streets showing natural and finished grades drawn to a scale of not less than one (1) inch equals one hundred (100) feet horizontal and one (1) inch equals twenty (20) feet vertical when reduced.

quired by the Planning Commission, and such plans as may be specifically required under Article V, Subsection 2, A.

(g) Preliminary sketch plans of proposed utility layouts (sewer, water, electricity, and gas) showing feasible conditions, where possible, to existing and proposed utility systems.

(h) If the proposed subdivision does not lie within the force and effect of an existing zoning ordinance, the preliminary plat shall be accompanied by a plan indicating the proposed use of the lots.

2. The Planning Commission's review of this preliminary plat shall be governed by the procedure set forth in Title 37, Article 3, Section 799, of the 1940 Code of Alabama (recompiled 1958). The Planning Commission, in its review, shall transmit the proposed plat to the Electric Department, Water Department, Sanitary Department, Health Department, and any other interested municipal or county department for review and recommendation in relation to specific service problems. The approval of the preliminary plat shall not be deemed final acceptance but rather an expression of approval of the layout as submitted on the preliminary plat; such approval shall not be noted on the preliminary plat. One copy of the preliminary plat shall be retained in the Planning Commission files.

Section 2 - Final Plat Approval
2.1. The final plat shall be submitted to the Planning Commission in triplicate, of which one copy shall be the original drawings, and unless this is done within one year of the Planning Commission's approval of the preliminary plat, such approval shall lapse. 2.2. It is the intent of these regulations that the sale of building lots should be contingent upon at least a minimum of public improvements being made within the dedicated streets of the plat as follows: (a) streets graded and improved to provide an all weather driving surface; (b) sufficient storm drains to adequately drain the streets and (c) water and sanitary sewer mains when these facilities are practicable; and that all these should be installed to the size and quality acceptable to the city department having jurisdiction. With the foregoing in mind, the Planning Commission will consider approval of the final plat only after receipt of:

- (a) A certificate from the municipal Clerk that all improvements have been installed in accordance with these regulations and with the action of the Planning Commission giving conditional approval of the preliminary plat, or
 - (b) A certificate from the municipal Clerk that a bond has been posted, available to the city, and sufficient amount to assure the completion of the required improvements.
- 2.3. The final plat shall be drawn on tracing cloth or paper and shall be a scale of one hundred (100) feet to one (1) inch or larger. Where necessary the plat may be on several sheets accompanied by an index sheet showing the location of the subdivision. The final plat shall show the following:

- (a) Primary control points, or descriptions and "ties" to such control points to which all dimensions, angles, bearings and similar data on the plat shall be referred.
- (b) Tract boundary line, right-of-way lines of streets, easements and other rights-of-way and property lines of residential lots and other sites, with accurate dimensions, bearings or deflection angles, and radii, arcs, and central angles of all curves.
- (c) Name and right-of-way width of each street or other right-of-way.
- (d) Location, dimensions and purpose of any easements.
- (e) Number to identify lot or site.
- (f) Purpose for which sites, other than residential lots, are dedicated or reserved.
- (g) Minimum building setback line on all lots and other sites.
- (h) Location and description of monuments.
- (i) Names of record owners of adjoining unplatted land.
- (j) Reference to recorded subdivision plats or adjoining platted land by record name, date and number.
- (k) Certification by surveyor or engineer certifying to the accuracy of survey and plat.
- (l) Certification of title showing that applicant is the land owner.
- (m) Statement by owner dedicating streets, rights-of-way and any sites for public use.
- (n) Title, scale, north point, and date.
- (o) Certificate of approval by the Planning Commission.
- (p) Certificate for recording by the Probate Judge.
5. Failure of the Planning Commission to approve or disapprove the final plat within thirty (30) days after submission shall be deemed approval of the plat. If the plat is disapproved, the grounds for disapproval shall be stated upon the records of the Commission, and a letter transmitted to the subdivider stating the reasons for such disapproval.

ARTICLE IV - GENERAL PROVISIONS

Section 1 - Public Use and Service Areas

1. Public Uses. Where a park, neighborhood recreational open space, a school site, or other areas for public use shown on an official map or on a plan adopted by the Planning Commission is located in whole or in part in the proposed subdivision, the Planning Commission shall seek to secure the reservation of the necessary land for such use.

1.2. Easements for Utilities. Except where alleys are provided for the purpose, the Planning Commission may require easements for poles, wires, conduits, storm and sanitary sewers, gas, water, and heat mains, or other utility lines on each side of the common rear lot lines and along side lot lines if necessary or advisable in the opinion of the Planning Commission.

1.3. Dedication to Public Use. There shall be no reserve strips except those which are conveyed to the government having jurisdiction.

Section 2 - Building Restrictions
No final plat of land within the force and effect of a zoning ordinance shall be approved unless the building restrictions to be established conform with the minimum requirements of such zoning ordinance.

Section 3 - Comprehensive Group Housing Development
A comprehensive group housing development including the construction of two or more buildings together with the necessary drives and ways of access and which is not subdivided into the customary lots, blocks, and streets may be approved by the Planning Commission if in the opinion of the Commission any departure from the foregoing regulations can be made without destroying the intent of the regulations. Plans for all such developments shall be submitted to and approved by the Planning Commission whether or not such plat is to be recorded and no building permits shall be issued until such approval has been given.

Section 4 - Variances

Where a subdivider can show that a provision of these General Requirements and Minimum Standards of Design would cause an unnecessary hardship if strictly adhered to and where, because of topographical or other conditions peculiar to the site, in the opinion of the Planning Commission a departure may be made without destroying the intent of such provisions, the Planning Commission may authorize a variance. Any variance thus authorized is required to be entered in writing in the minutes of the Planning Commission and the reason which justified the departure to be set forth.

ARTICLE V - GENERAL REQUIREMENTS AND MINIMUM STANDARDS OF DESIGN FOR THE SUBDIVISION OF LAND

Section 1 - Conformity to the Town, City, County, or Regional Plan
All proposed subdivisions shall conform to any Town, City, County, or Regional Plan and to the City Zoning Ordinance. Wherever a tract to be subdivided embraces any part of a highway, major street, or collector street, so designated on any Town, City, County, or Regional Plan, such part of such proposed subdivision shall be platted by the subdivider in the same location and at the same width as indicated on such Town, City, County or Regional Plan.

Section 2 - Relation to Adjoining Street System. Proposed new streets shall extend existing streets or their projections at the same or greater width. Where the width of a proposed street is less than the minimum required width, unless variations are deemed necessary by the Planning Commission for reasons of topography or design, the proposed street shall be widened to the minimum required width. It is desirable to provide street access to adjoining property. Proposed streets shall extend to the boundary of the proposed subdivision. The boundary of the subdivision of land and proposed for subdivision will not be permitted.

2.2. Street Width. The minimum width of proposed streets measured from lot line to lot line shall be shown on the Major Street Plan, or if not shown on such plan, not less than eighty (80) feet for Major Streets, sixty (60) feet for Collector Streets, and fifty (50) feet for other streets. Alleys serving business lots shall not be less than twenty (20) feet.

(a) A certificate from the municipal Clerk that all improvements have been installed in accordance with these regulations and with the action of the Planning Commission giving conditional approval of the preliminary plat, or

(b) A certificate from the municipal Clerk that a bond has been posted, available to the city, and sufficient amount to assure the completion of the required improvements.

2.3. The final plat shall be drawn on tracing cloth or paper and shall be a scale of one hundred (100) feet to one (1) inch or larger. Where necessary the plat may be on several sheets accompanied by an index sheet showing the location of the subdivision. The final plat shall show the following:

- (a) Primary control points, or descriptions and "ties" to such control points to which all dimensions, angles, bearings and similar data on the plat shall be referred.
- (b) Tract boundary line, right-of-way lines of streets, easements and other rights-of-way and property lines of residential lots and other sites, with accurate dimensions, bearings or deflection angles, and radii, arcs, and central angles of all curves.
- (c) Name and right-of-way width of each street or other right-of-way.
- (d) Location, dimensions and purpose of any easements.
- (e) Number to identify lot or site.
- (f) Purpose for which sites, other than residential lots, are dedicated or reserved.
- (g) Minimum building setback line on all lots and other sites.
- (h) Location and description of monuments.
- (i) Names of record owners of adjoining unplatted land.
- (j) Reference to recorded subdivision plats or adjoining platted land by record name, date and number.
- (k) Certification by surveyor or engineer certifying to the accuracy of survey and plat.
- (l) Certification of title showing that applicant is the land owner.
- (m) Statement by owner dedicating streets, rights-of-way and any sites for public use.
- (n) Title, scale, north point, and date.
- (o) Certificate of approval by the Planning Commission.
- (p) Certificate for recording by the Probate Judge.
5. Failure of the Planning Commission to approve or disapprove the final plat within thirty (30) days after submission shall be deemed approval of the plat. If the plat is disapproved, the grounds for disapproval shall be stated upon the records of the Commission, and a letter transmitted to the subdivider stating the reasons for such disapproval.

Section 3 - Blocks
Blocks shall not be more than twelve hundred (1200) feet in length. In blocks over eight hundred (800) feet in length, the Planning Commission may require one or more public cross walks with not less than a ten (10) foot right-of-way.

3.1. Lot Arrangements. Insofar as practical, side lot lines shall be at right angles to straight street lines or radial to curved street lines. Each lot must front upon a street which is not less than fifty (50) feet in width and which is connected with the public street system.

3.2. Minimum Lot Size. Within the Subdivision Jurisdiction Limits of the municipality, the size and shape of residential lots shall be such as the Planning Commission deems appropriate for the type of building development contemplated. In no case, however, shall lot sizes and widths at the building line be less than the minimum standards established by the Zoning Ordinance. Corner lots shall have extra width sufficient to permit establishment of a building line at least fifteen (15) feet from the side street property line. The distance from the side street property line shall be measured from the street right-of-way paralleling the long dimension of the lot.

3.3. No building lots shall be platted in areas known to be subject to flooding or in areas which, for other reasons are unsuitable for such use.

3.4. Minimum Lot Size. Within the Subdivision Jurisdiction Limits of the municipality, the size and shape of residential lots shall be such as the Planning Commission deems appropriate for the type of building development contemplated. In no case, however, shall lot sizes and widths at the building line be less than the minimum standards established by the Zoning Ordinance. Corner lots shall have extra width sufficient to permit establishment of a building line at least fifteen (15) feet from the side street property line. The distance from the side street property line shall be measured from the street right-of-way paralleling the long dimension of the lot.

3.5. Land which the Planning Commission has found to be unsuitable for residential or other development (see Zoning Ordinance) due to flooding, bad drainage, steep slopes, rock formations or other features likely to be harmful to the safety, health and general welfare of the future residents shall not be developed unless adequate measures are approved by the Planning Commission are formulated by the developer for meeting the problems involved.

BRAINSTORMS

With Fernin Cox

Governor Wallace has come out in the open for us all to see his tactics in the current running battle with the state senate over his \$135 million road bond issue. Tuesday he told a group of citizens the bridge they wanted would not be approved if their respective senators did not support his road bond issue. Politics often work this way behind the scenes but to me this is a departure from the usual. This preceded the action in the Senate that placed the bond issue in the Senate Committee on Transportation and Common Carriers, whose chairman is Senator Crum Foshoe of Red Level. Foshoe was one of the Senators involved in the ultimatum over the bridge. He is also one of the Senators who opposed the bond issue in the special session of the legislature.

The pictures of three of our Commissioners taken as they sampled food at their annual Commissioners' Convention were furnished to us by County Agent Tom Cassidy. Now Tom is real proud of each of the men serving Coffee County and it now appears he is also proud of the fact the County Agents sponsored the "Country Kitchen" that furnished the food for the convention. The Commissioners, as all good politicians, have long ago learned how to enjoy eating a variety of food in a variety of places, but reports reaching Elba indicate the food in Huntsville was good by anyone's standards.

I have both criticized and praised the actions of Elba's City Council during this year. I have both praised and criticized myself but the strongest threat ever made against me was one several years ago warning of a possible motion before the Council voting their official disapproval with the Elba Clipper. But a City Father in another Wiregrass town has gone a bit further with his newspaper editor according to news reports. I won't try to tell the whole story but it evolves around a dead mule and the City Father reportedly told the editor that "if you don't set the record straight I will beat it... but of you". Thank goodness they exercise more restraint in Elba!

The local hospital board, hospital administrator I. owell Benton and all three Elba doctors are continually searching for another doctor for Elba. They recently had a real good prospect but he had decided to settle somewhere else.

I keep hearing reports that vast numbers of mobile home owners in Coffee County pay no taxes on their

trailers. Some even contend they shouldn't have to pay even though every citizen that owns a conventional home must pay taxes on his home. The law provides a way to force payment of these taxes but first someone needs to enforce these laws. I understand the burden lies somewhere between the County Tax Assessor, County Tax Collector, County Commissioners and the County License Examiner, appointed by the Governor - someone please help. If we could get everyone paying maybe this would postpone additional taxes on present taxpayers!

YOUR LAND IS MY LAND
Congressmen will soon match forensic talents in a contest to settle the biggest land scramble since the settling of the West.

In the final analysis, however, the problem is reduced to who will tell whom how to use these great natural resources.

We feel that the multiple-use advocates have the best of the argument, for in this way the land will be used constructively for the many instead of a select few.

Those who are unfortunate enough to receive such material may either send it or send it back to the post office marked "refused." Mail patrons who don't want to receive unsolicited mail hearing the symbol can notify the Postmaster General, who will make certain that such mail is not delivered to that patron.

Smut merchants who try to ignore the roughness of this bill and violate its provisions will face strong penalties. Punishment for the first offense of mailing to minors is a \$5,000 fine and/or five years imprisonment, and for the second \$10,000 and/or 10 years imprisonment.

Mallers who fail to provide the required mark on unsolicited material will face a fine of \$1,000 for mailings of up to 25 addressees and \$50,000 for mailings of more than 25 addressees.

The language in this bill, in others, has been very carefully studied and worded in order to pass the Constitutional tests required by the Supreme Court. Thus far, the High Court has been the pornography's best friend.

I am hopeful that the Senate will in this Congress follow the House's lead in attacking the pornography trade in this country, and above all, in protecting our citizens from its influence through the U. S. mails.

THE ELBA CLIPPER JULY 15, 1971

The honoree and receiving line

Miss Jackson Entertained

The home of Mrs. Weldon Bozeman was the setting for a delightful shower which honored Miss Dottie Jackson, Miss Jackson and Bobby Parker plan their wedding for July 24th.

The occasion was held June 25th with Helen Deal, Merlene Owens, Edna Carr, Ann Fuller, Miki Chancelor, Jumeil Barker, Ellen Cherry, Dianne Goodson and Sherry Tew assisting as hostesses.

Upon their arrival, the guests were greeted by Mrs. Bozeman and presented to the honoree, her grandmother, Mrs. Gladys Carr; her great-grandmother, Mrs. Mary Fuller and the groom-to-be's mother, Mrs. Louise Parker.

The guest registry was presided over by Miss Barker. The bride's book was placed on a table overlaid with light pink linen highlighted with touches of dark pink repeated in flowers and ribbon streamers.

The guests were then invited into the spacious dining room of the Bozeman's home where refreshments of party dainties were served from a round table covered with a lace cloth overlaying pink linen. The punch service was white milk glass accented on either side by silver candelabras holding pink tapers. Pastel colors were used in decorating the dining room and gift areas.

Miss Jackson chose for this delightful event, a long pastel floral dress. To highlight her outfit, the hostesses presented her with a pink carnation corsage.

The guests called between the hours of 7:30 and 9:00 p.m.

The home of Mrs. Mildred Carr was the setting from six until eight for a linen shower honoring Miss Jackson.

Hostesses with Mrs. Carr were Miss Sue Jackson, Miss Betty Holladay, Miss Carla Pigman and Miss Donna Dupuch.

Guests were invited to sign the registry placed on a table with an arrangement of mixed spring flowers. Floral arrangements were attractively placed in the living room and dining room. The refreshment table was covered with a lace cloth and lighted by yellow candles burning in silver candelabras. Yellow mums interspersed the wreath of greenery that encircled the punch bowl and silver table appointments held a variety of party refreshments.

Miss Jackson wore for this occasion, a becoming pastel blue and white dress. She was presented a corsage of white carnations by her hostesses who also presented a corsage to Mrs. Gladys Carr, grandmother of Miss Jackson and Mrs. Louise Parker, mother of the groom-to-be.

Many lovely and useful gifts were presented to the honoree. Twenty-five names were included in the guests list.

BPW Members Meet At Elba Country Club

The July dinner meeting of the Elba Business and Professional Women's Club was held July 12 at the Country Club.

The pledge of allegiance to our country's flag was led by Carrie Jacobs. Betty Adkinson gave the invocation. The president, Jane Morrow, presented gifts to Mable Lawless and Luna Dell Ringo, charter members of the club. Corrine Lowrey was also recognized for her outstanding leadership as past president.

Rachel Waters of Enterprise, Director of District II, spoke to the members on problem-solving of American people. She emphasized such things as personal criticism, human attitudes and political views of today's women.

Two other guests, Vera Moore and Alice Andrews were welcomed. Members were Jessie Taylor, Felicia Revel, Nellie Martin, Syble Stivers and Ella Jean Vaughan.

The meeting adjourned with the BPW collected led by Corrine Lowrey.

Now It's Too Late!

A narcotics arrest. That can't be your son or your daughter in handcuffs. That garishly lit courtroom, the police evidence, the judge pronouncing sentence—it must just be a hideous nightmare. But it's not a bad dream you can shrug off. It's reality—a young life is ruined.

An arrest for theft. Theft? Not anyone you know, surely. But it could be that young man down the block—from a nice family, with a generous allowance. But not enough to pay for his monstrous, gnawing need for more and more drugs. Finally he steals—and gets caught.

KNOW YOUR ENEMY!

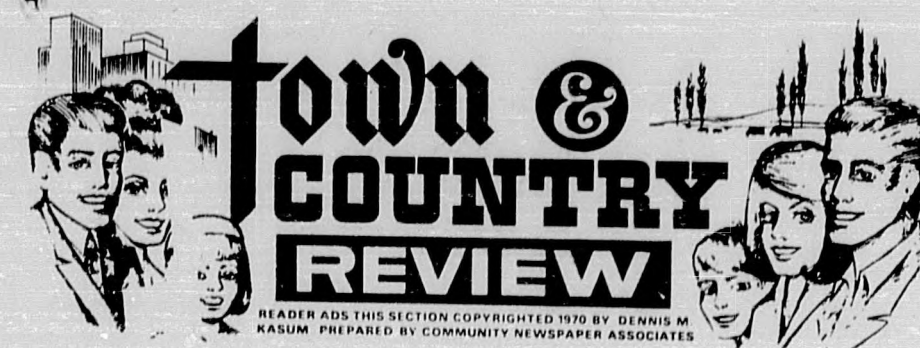

- * Dorsey Trailers
- * The Peoples Bank
- * National Security Insurance Co.

BEFORE IT'S TOO LATE! We must stem the epidemic of drug-abuse. We must educate ourselves, our children, our community to the dangers. We must work with national and local organizations to set up Information Centers, Drug Rehabilitation Programs.

- * Kleinert's
- * Elba Exchange Bank
- * The Elba Clipper

Another pusher arrested. But this one isn't a shadowy, sinister figure from the underworld. It could be your own child's classmate. Already hooked. Caught up in a vicious circle of selling drugs in order to buy drugs—for himself.

By now the symptoms and physical dangers of drug-abuse are practically common knowledge. The terminology is part of everyday vocabulary. But the consequences of drug involvement are catastrophic. Arrest. Jail. Irreparable damage. We must find answers to the drug-abuse problem right now. Before it's too late.

BILL'S SUPERETTE

PHILIP'S REALTY AND INSURANCE**PHILIP GENNUSO - Realtor**

Whether you are interested in real estate for an investment, business or a home, every deal should be fully investigated by someone with experience extensive enough to insure you that there is no deceit of any nature and both parties receive dollar for dollar value.

For the best interest of

any readers contemplating selling or buying we honestly believe that the wisest preliminary step would be to consult with Philip's Realty and Insurance, located at 104 Dohlan Highway in Enterprise, phone 347-6333.

This firm can be relied upon for astute judgment as to values of all types of property for miles around.

At the same time they have established a reputation for fast action on buying or selling and completing transactions.

It is with pleasure that the staff of this Review are able to unhesitatingly bring them to the attention of our friends in this 1971 Town and Country Review.

SMITH LUMBER COMPANY**SMITH CASH & CARRY**

With three convenient locations in Enterprise and Elba, these popular stores carry a complete line of grade building materials, supplies, and tools, and through their fair methods of doing business and the high quality and fair prices constantly offered, they have won an enviable reputation throughout this section.

Smith Lumber Company on Conner in Enterprise, Smith Cash & Carry on Alberta Street in

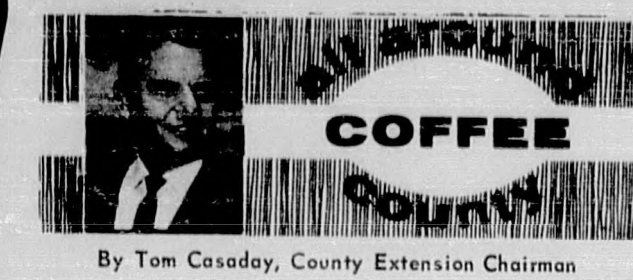

Enterprise and Smith Cash and Carry on North Troy Highway in Elba are the places to trade.

The people of this territory, including contractors, builders, and do-it-yourself homeowners, have come to know that they can depend on Smith for everything in building materials. It may be truly said that this firm is a valued asset to the community.

One of the essential features of any house, store or other structure is the way it will stand the wear of the years. The same is true of the reputation of any business firm and that is why the Smith locations enjoys an ever increasing volume of business and popularity.

The writers of this 1971 Review are happy to suggest that our readers make Smith's their lumber headquarters.

TOUR

I had the opportunity to visit some of the western states during the past two weeks while on vacation. After going on this trip which included Mississippi, Louisiana, Texas, Nevada, Arizona, and California, I formed some definite opinions.

The thing that impressed me most was the fact that so much of the west receives so little rainfall that they do not produce the grass that we do for cattle. I am more convinced than ever that here in Coffee County and the Wiregrass, we can greatly increase the production of beef cattle.

I visited the L. B. J. ranch near Stonewall, Texas. His 430 acres of land was green. He has the Pedernales River running right in front of his house.

I noticed three big diesel pumps pumping water out of the river and onto pasture lands in back of his house. His ranch is an exception. I saw very little irrigation of pastures elsewhere. However, I did see lots of cotton, alfalfa, corn and grain sorghum being irrigated.

PEANUTS

Chapline Curington, who lives out the Ozark Highway from Enterprise, has some of the finest Florissant peanuts I have seen. In fact, they have already covered the ground and look like peanuts would ordinarily look the first of August. Curington usually plants just as soon after April 1 as he can, he believes, though, he was a little later planting this year due to the cool weather.

He has already sprayed

three times for leafspot, and I saw only a very few signs of leafspot damage. Curington has developed a lot of confidence that he can control leafspot, disease, worms and just about anything else that comes up except for droughts.

4-H HORSE SHOW

Plans are shaping up nicely for the second annual Coffee County 4-H Horse Show. The show this year will be held at the arena back of Garwoods in Enterprise beginning at 5:30 this Saturday afternoon.

I went to the first show that the 4-H'ers had last year. This being my first one of this type, I thought we would get through about sundown or before. But if I remember correctly, we were still at the show when it was over.

A lot of folks have worked hard in preparation for the 4-H Horse Show. Mrs. Dot Olsen and Mrs. Sadie Trall of Enterprise along with the members of the Dixie 4-H Club have been very active in setting the show up and getting the awards. Incidentally, they are giving away a saddle which is valued at \$500.

SANITARY LANDFILLS

I was talking with Judge Sawyer about the new sanitary landfill which is being developed near New Brockton. This facility, which the county governing body is providing, is going to be one of the finest things that has happened in this county. Folks in the rural areas will have a place to put their garbage and other things that need to be thrown away. This is the first organized effort that has been made to do something about this problem.

In my work I get into all communities in the county. During the past ten years some of the communities have been plagued with roadside dumps which are very unsightly. I am glad to know that something is being done about it, and I congratulate our probate judge and county commissioners for making this facility available to our people.

TOMATO GROWING

I have always tried to pride myself on being able to grow good tomatoes. Several years ago I lived near Kenneth and Becky Fuller on Pinehurst Drive in Enterprise. Mrs. Fuller is the gardener in her family.

CREDIT RECORD

Almost every adult has a credit record filed in a credit bureau or reporting agency. The record has facts on jobs, income, savings, loans and installment buying practices. But the record may contain other data, like marital status and personal history.

The Fair Credit Reporting Act -- which went into effect in April -- protects you from inaccurate information that may be used to determine eligibility for credit, insurance or employment. The law guarantees you the right to know what personal data is reported to those who extend credit, provide insurance or offer employment. It also gives you the right to correct false information that is being distributed.

This new credit law gives you the right to be told the name and address of the consumer reporting agency when you are denied credit, insurance or employment. You can examine information in your file at the credit bureau.

PEAS

People all over the country like southern peas. They are frozen, canned and used fresh. You may call them cowpeas. However, there has been a number of new varieties developed in recent years that has made this a more sophisticated crop. There are crowders, pinkies, blackeyes and creams.

If you didn't get your Southern peas planted in the early garden, you can still grow them. They can be planted in July in all areas of the state, and

even during early August in the southern area.

Now is a good time to get rid of some early crops that are through bearing and plant peas. If the early crops were heavily fertilized, chances are they will need no extra fertilizer. The Crowder varieties include Knuckle Purple Hull, Mississippi, etc. Purple Hull Pinkeye is the primary variety of pinkies. Good blackeye varieties include Princess Anne and Alabama Giant Blackeye. Texas Cream 40 and Floricream are good cream varieties.

To control cowpea curculio (just plain worms),

start dusting or spraying shows. Make two additional applications at 3 to 4 day intervals.
